

Our *Manoflex* is a **water manometer gauge** made of heavy duty polythene which is unbreakable and can be rolled up for ease of carrying.

General Specification

U Tube:	Heavy duty polythene with scales on front and rear. A screw type zero adjuster is fitted for aligning the water levels with the zero mark on the scale.
Metal Ring:	Provided at top of gauge to enable suspension from a hook if required.
Strap:	Provided on 36 inches length and above to hold the gauge in coiled position.
Scales:	Calibrated in inches water gauge, millibars or centimetres water gauge. Any two scales can be supplied, e.g. wg/mb, cm/mb, mb/mb scale.

Manoflex EM100

Main Applications

A **world leader** in manometers, Rototherm has become the standard for accurate and reliable measurement across the following industries:

Commercial & Domestic HVAC

Technical Certification

- Certificate of conformity

Export Documentation

- Certificate of Origin
- EUR1
- ATR

Calibration and After-Sales Support

- Fully trained field service personnel
- Use of UKAS certified calibration equipment
- 5 day turnaround
- Fixed pricing
- Approved manufacturer parts
- Full post-service reports
- 12 month warranty

ISO9001:2015
FM11958
